For Immediate Release

LMW UPDATES FIRST MILDURA IRRIGATION DISTRICT CUSTOMERS

Lower Murray Water has today announced that it has written to each former First Mildura Irrigation Trust customer advising of new operational arrangements for the integration of the Trust into the LMW business.

Managing Director, Ron Leamon, said, "We see this as an important way of ensuring that all our customers within the First Mildura Irrigation District are kept fully informed of the changes as they are being implemented across the business.

"We are nearly a month down the track from the Minister's announcement of the changed management responsibility and we are happy with the progress made in transitioning all operations."

"Our intention now is to further build on the transitional arrangements to provide a level of service that all irrigation district customers find worthy for their horticultural operations." Mr Leamon said.

Along with the letter from LMW, the Corporation advises that the Minister for Water, Tim Holding MP has also written to each customer explaining the reasons for his decision to close down FMIT and transfer of its responsibilities to LMW.
