

LINK ASSESSMENTS

Link assessments to access information without the need to log in to each individual assessment. Outlets on linked assessments will be listed at the bottom of the Place an Order page. Click to access a different outlet.

Note: Assessments can be formally linked to a single ABA (*Allocation Bank Account*). The link process below is provided for customer convenience only. Enquires about amalgamating ABA's should be directed to **Licensing and Entitlements** on (03) 5051 3400.

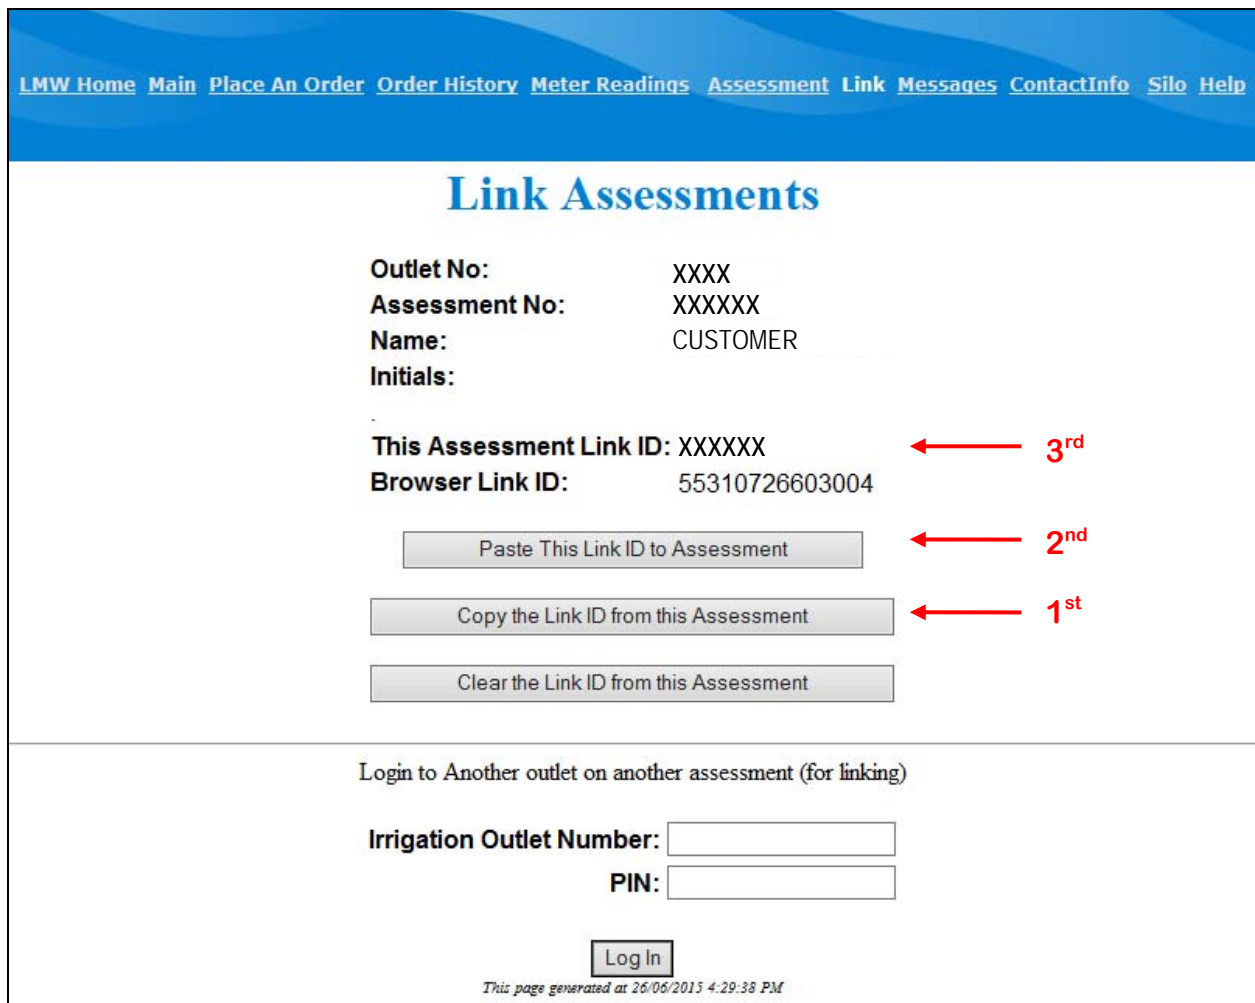

STEP 1

Click "**Link**" on the page header.

STEP 2

To link an assessment to the current login information click "**Copy the Link ID from this Assessment**". Then click on "**Paste This Link ID to Assessment**".

The login information will be pasted next to the text "**This Assessment Link ID**".

The screenshot shows the 'Link Assessments' page with a blue header containing navigation links: LMW Home, Main, Place An Order, Order History, Meter Readings, Assessment Link, Messages, ContactInfo, Silo, Help. The main content area is titled 'Link Assessments' and displays the following information:

Outlet No:	XXXX
Assessment No:	XXXXXX
Name:	CUSTOMER
Initials:	

Below this information, there are three lines of text with red arrows pointing to them from the right:

- This Assessment Link ID: XXXXXX (3rd)
- Browser Link ID: 55310726603004
- Paste This Link ID to Assessment (2nd)

Below these are two more buttons:

- Copy the Link ID from this Assessment (1st)
- Clear the Link ID from this Assessment

At the bottom of the page, there is a section for logging into another outlet:

Login to Another outlet on another assessment (for linking)

The new assessment has now been logged into and is directly linked to the previous login details.

STEP 5

Log out - this is what creates the link.
Then log back in to link the next assessment.

STEP 6

To cancel the link, click on the “**Link**” header at the top of the page then click “**Clear the Link ID from this Assessment**”. Enter other linked outlet number / assessment and repeat the process.
