HOW OUR INFRASTRUCTURE CHARGES AND PLANNING AND MANAGEMENT CHARGES ARE DETERMINED

Lower Murray Water's rural infrastructure related services and prices are regulated by the Essential Services Commission of Victoria (ESC) under accreditation from the Australian Competition and Consumers Commission in accordance with the Water Charge Rules 2010 to achieve the Basin water charging objectives and principles set out in Schedule 2 of the Water Act 2007.

LMW is required to submit a pricing submission to the ESC proposing rural service levels and prices. It is the role of the ESC to assess LMW's price submission against the legal framework and make a price determination that specifies the maximum prices LMW may charge for its prescribed services.

The ESC conducts an annual tariff review to adjust the maximum prices permitted using the ESC's determination's price adjustment mechanisms. The Board approve the service tariffs to be charged annually in May/June.

The current ESC pricing determination on LMW's services and prices is for a five-year period of 1 July 2018 to 30 June 2023 and can be located on the ESC's website. The role and work the ESC do in regulating the Victorian water industry is available on the EC's website: <https://www.esc.vic.gov.au/water>

LMW provide water planning and management services for which charges are levied. The services LMW provided are delegated by the Minister of Water under the Instrument of Delegation dated 27 October 2014. The services and how the price is determined and charged are published on LMW's website: <https://www.lmw.vic.gov.au/billing-charges-fees/rural-charges-fees/>

HOW OUR PASS-THROUGH CHARGES ARE DETERMINED

GMW Storage Fees - Lower Murray Water's charge is a pass-through charge which has been determined and set by Goulburn-Murray Water in accordance with their 2020-24 Pricing Submission approved by the Essential Services Commission.

The revenue collected from this charge is transferred to Goulburn-Murray Water annually to contribute to the costs and expenses in operating and maintaining water storages that service the regulated river system.

DELWP Water Share Fee - Lower Murray Water's charge is a pass-through charge which has been determined and set by the Department of Environment, Land, Water and Planning in accordance with Water Act 1989 and are based on the monetary fee unit set by the Victorian Treasurer. The charges are subject to annual adjustments.

The revenue collected from this charge is transferred to the Department of Environment, Land, Water and Planning annually to contribute to the costs of maintaining the Victorian Water Register.
