

Explanation of Tariffs 2025/2026

All fees and charges are set for services and works provided by Lower Murray Water for the period 1 July 2025 to 30 June 2026 except as otherwise provided.
All prices are exempt from GST.

Lower Murray Water's (LMW) tariffs and charges set are in accordance with the revenue cap contained in the LMW Determination, approved by the Essential Services Commission (ESC) in 2023. In its role as the regulator of essential service providers, prior to providing this information to you, the ESC has reviewed and approved LMW's 2025/2026 tariffs and charges.

Rural Tariffs and Charges

IRRIGATION DISTRICTS

* Domestic and Stock metered water usage from the last meter reading in June 2025 to December 2025 will be billed in the third quarter account. There may be other tariffs that apply to individual properties that are not listed here. Domestic and Stock Customers do not incur drainage fees.

** Any usage charged in the first account is at the 2025/2026 rate per ML as this usage applies to April-June 2025. Please refer to LMW's 2024/2025 Fees and charges schedule when calculating this charge.

Description of Charges

Annual Salinity Impact Charge is based on the property's Water Use License total per ML Annual Use Limit. These charges contribute to the cost to investigate, construct, operate and maintain Salt Interception Works to reduce the impacts of salt reaching the Murray River.

Bore Construct License Application Fee is charged upon lodgement of an application to construct, operate or modify a bore for licensed or non-licensed purpose. This is a once off lodgement fee.

Casual User Fee is charged to Customers who do not have a delivery share or sufficient delivery share for the volume of water delivered to their property. It is the fee that is paid to contribute for the upkeep of the irrigation district's delivery system.

Connection / Disconnection Fee is determined based on the recovery of reasonable costs at the time of connection or disconnection.

Department of Energy, Environment and Climate Action Water Share Fee is a pass through charge from the Victorian Water Register, one fee per Water Share.

Delivery Share Fee is based on the property's defined level of access to the delivery infrastructure. The property's defined level of access is its Delivery Share which is expressed in ML per 14-day period. This charge contributes to Lower Murray Water's fixed infrastructure and maintenance costs.

Drainage Share Fee is based on the property's defined level of access to the drainage infrastructure to collect excess applied irrigation water. The property's defined level of access is its Delivery Share which is expressed in ML per 14-day period.

GMW Above Entitlement Storage Fee is collected on behalf of Goulburn Murray Water is a pass-through charge from the Northern Victorian Resource Manager based on your total Water Share volume held in storage above your entitlement volume, covering the costs of maintaining and operating headwork's and river regulation.

GMW Entitlement Storage Fee is collected on behalf of Goulburn Murray Water is a pass-through charge from the Northern Victorian Resource Manager based on your total Water Share volume, covering the costs of maintaining and operating headwork's and river regulation.

High Risk Application Assessment Fee is charged per hour for the time taken to assess groundwater applications considered to be high risk. This is a once off assessment fee.

House Component is based on the property's defined level of access to the delivery infrastructure. The property's defined level of access is its total number of houses on the property.

Metered Water Usage is based on the metered volume of water delivered to the property. This fee contributes to the cost of supply for each megalitre delivered.

Scrubland is based on the property's total scrubland area in hectares.

Service Charge is charged per assessment to cover the cost of account administration, including postage, preparation of invoices and payment receipting.

Stocked Area is based on the total stocked area in hectares less any scrub area.

Take and Use License Application Fee is charged upon lodgement of an application to take and use groundwater and operate works. This is a once off lodgement fee.

Termination Fee is charged to a customer who holds a delivery or drainage share right and wishes to terminate or surrender all or part of that right.

Unmetered Domestic and Stock Charge is charged per domestic and stock connection connected to the delivery infrastructure which is unmetered. This charge contributes to Lower Murray Water's fixed infrastructure and maintenance costs.

Works Licence Renewal is determined in line with DEECA fees and charges. Works Licenses are renewed by reach every 5 years. This fee will be included in the next account issued after successful renewal.

How our infrastructure charges and planning and management charges are determined

Lower Murray Water's rural infrastructure related services and prices are regulated by the Essential Services Commission of Victoria (ESC) under accreditation from the Australian Competition and Consumers Commission in accordance with the Water Charge Rules 2010 to achieve the Basin water charging objectives and principles set out in Schedule 2 of the Water Act 2007.

LMW is required to submit a pricing submission to the ESC proposing rural service levels and prices. It is the role of the ESC to assess LMW's price submission against the legal framework and make a price determination that specifies the maximum prices LMW may charge for its prescribed services.

The ESC conducts an annual tariff review to adjust the maximum prices permitted using the ESC's determination's price adjustment mechanisms. The Board approve the service tariffs, to be charged annually, in May/June.

The current ESC pricing determination on LMW's services and prices is for a five-year period of 1 July 2023 to 30 June 2028 and can be located on the ESC's website. The role and work the ESC do in regulating the Victorian water industry is available on the ESC's website: www.esc.vic.gov.au/water

LMW provide water planning and management services for which charges are levied. The services LMW provided are delegated by the Minister of Water under an Instrument of Delegation. The services and how the price is determined and charged are published on LMW's website: www.lmw.vic.gov.au

LMW continually engage to ensure the services provided reflects customer's expectations.

How our pass-through charges are determined

Salinity Impact Charges - Lower Murray Water's charge is a pass-through charge which has been determined and set by the Minister for Water in the Determination of Salinity Impact Zones and Salinity Impact Charges 2021 which came into effect on the 1 January 2021. The charges are subject to annual adjustment as per section 232C of the Water Act 1989.

The revenue collected from this charge is transferred to the Mallee Catchment Management Authority annually to pay the costs and expenses in performing the delegated functions and powers of the Minister for Water under section 232A of the Water Act (1989).

GMW Storage Fees - Lower Murray Water's charge is a pass-through charge which has been determined and set by Goulburn-Murray Water in accordance with their 2024-28 Pricing Submission approved by the Essential Services Commission.

The revenue collected from this charge is transferred to Goulburn-Murray Water annually to contribute to the costs and expenses in operating and maintaining water storages that service the regulated river system.

DEECA Water Share Fee - Lower Murray Water's charge is a pass-through charge which has been determined and set by the Department of Energy, Environment and Climate Action in accordance with Water Act 1989 and are based on the monetary fee unit set by the Victorian Treasurer. The charges are subject to annual adjustments.

The revenue collected from this charge is transferred to the Department of Energy, Environment and Climate Action annually to contribute to the costs of maintaining the Victorian Water Register.

Customer Charter

Our Rural Customer Charter sets out the rights and obligations of both Lower Murray Water and our customers in relation to rural water services.

This includes:

- Delivery standards for rural water supply.
- Customers' right to a functional drainage service.
- Access to a 24-hour emergency service.
- Our requirements for entry to customers' land and access to easements and reserves.
- Customer information on works, licences, metering, billing, accounts, payments, concessions and actions for non-payment.

To view our customer charter, please see our website at www.lmw.vic.gov.au/about-us/publications/customer-charter-rural/

Hardship Assistance

We understand that from time-to-time our customers may experience financial hardship and may need additional assistance and flexibility. Our Hardship Program identifies and assists vulnerable customers to manage their water costs and usage.

For more information please call us during office hours on **1800 808 830** or go to: www.lmw.vic.gov.au

Assistance is confidential, tailored to customers' needs and is not means-tested.

Dispute Resolution

Please refer to our Rural Customer Charter which outlines our policy and obligations should you have a dispute or complaint. Please visit our website www.lmw.vic.gov.au and search for 'Customer Charter Rural'.

If you have any questions or wish to dispute your bill, please call us on **1800 808 830** or email us at: contactus@lmw.vic.gov.au

Due Dates for Payment

All Rural tariffs and charges must be paid by the date specified in the invoice provided and failing any date being specified in that invoice, 28 days from the date of issue of the invoice. The date on all invoices represents the final date that the payment will be accepted interest-free.

Invoices will be mailed late **July, October, January and April**. Interest shall be payable in respect to all amounts payable under a tariff or charge if the amount is not paid by the due date.

Monitoring Your Usage

You can monitor your water usage via the Lower Murray Water Online Water Ordering Site: waterorder.lmw.vic.gov.au

By logging in you have access to view the following:

- Your meter readings outline readings for the current season and past seasons.
- Assessment information provides a summary of your ABA and spillable account.
- A usage chart details the water you have used for the current season, your previous usage, what your entitlement is and your available water balance.
- Your irrigation outlets/meters information including the total metered usage.
- Your water share, water use licence and AUL details.

Register for SMS and Email alerts

You can ensure you are receiving up to date information from us by updating your information via the Online Water Ordering site.

To do this you log in to the site: waterorder.lmw.vic.gov.au

Click on the Contact Info tab at the top of the screen. Enter your current details into the form and submit it for updating.

We encourage you to ensure this is up to date as we use SMS and email to update customers regularly as required. If you require assistance with the Online Water Ordering site, registering your information or monitoring usage please contact our office during office hours.

Interest

Interest is charged in respect to all amounts payable under a fee or charge if the amount is not paid by the due date. The interest rate applicable to amounts not paid by the due date calculated in accordance with the Water Act 1989 (Vic) is 5.7% for the 2025/2026 Financial Year. Interest will not be payable on overdue account balances by customers who are actively participating in our customer support program or hold a valid pension/concession card. This applies for balances from a prior period where a payment arrangement is still in force.
