## **About your development**

Development typically falls into one of the following categories:

**Infill Development** is he development of a residential or commercial property in an area that has access to our existing water and sewer infrastructure, either by simple connection, or by extension of the water and sewer mains.

**Greenfield Development** is the subdivision of undeveloped or unserviced land into residential or commercial sites. It often requires construction of new major water or sewer infrastructure (excluding small main extensions

**Major water or sewer infrastructure** typically includes water tanks, water pump stations, sewer pump stations, pressure reducing values or major pipelines.

Select the option that best describes	your development
