

**LOWER MURRAY
WATER**

Position Description

Position Title Project Engineer

Employment type Full Time

Pay Band 5

Location Mildura or Swan Hill

Direct Reports Nil

Reports to Program Manager

Delegated Authority E

Position Summary

The Project Engineer will work as part of the Projects Team within the Infrastructure Services Department to support the delivery of Lower Murray Water's Capital Works Program. Reporting to the Program Manager, the role is responsible for applying project management practices, administering contracts, coordinating consultants and contractors, and overseeing onsite works. The position ensures projects are delivered safely, efficiently, and in compliance with contractual, environmental, and safety requirements

Key Responsibilities

The Project Engineer is responsible for:

1. Safety & Compliance
 - a. Complying with all applicable occupational and safety (OH&S) laws, regulations and policies, as well as environmental protection laws and policies.
 - b. Overseeing compliance with safety, environmental and quality systems in accordance with LMW and regulatory requirements.
 - c. Monitoring contractor compliance with the Environmental Management Framework, associated plans and Contractor's Safety Management System.
 - d. Undertaking hazard and incident reporting, audits and support corrective actions where required.
2. Project Management
 - a. Managing capital works projects in accordance with the LMW Project Management Framework from project initiation through to completion.
 - b. Undertaking project scoping activities, including helping define objectives, deliverables, risks, and constraints in consultation with stakeholders.
 - c. Preparing procurement documentation and supporting the procurement process in line with organisational policies and procedures.
 - d. Assisting in the development and review of designs, ensuring they are technically sound, cost-effective, and aligned with project requirements and regulatory standards.
 - e. Assisting in ensuring design documentation is complete, accurate, and suitable for procurement and construction.
3. Contract & Contractor Management
 - a. Administering consultancy and construction contracts including variations, progress claims and performance.
 - b. Maintaining site records and reporting non-compliance with contractual obligations.
 - c. Liaising with contractors to foster a culture of safety, quality, and performance

Vision:

A thriving future where water sustains people, nourishes land and enables prosperity

Purpose:

To realise the full value of water for healthy people and productive landscapes

Our Values:

Deliver

Grow

Respect

Collaborate

Safe Work Done Well

4. Construction Supervision & Site Coordination
 - a. Providing day-to-day oversight of site works.
 - b. Monitoring works progress against schedule and budget.
 - c. Capturing site data, record keeping and reporting.
5. Reporting & Documentation
 - a. Preparing regular project updates and technical reports for the Program Manager.
 - b. Ensuring project records are accurately maintained in LMW systems.
 - c. Tracking progress against project milestones and maintaining site documentation.
6. Stakeholder Engagement
 - a. Leading engagement activities with internal and external stakeholders
 - b. Ensuring project activities are communicated effectively and respectfully.

Skills and Experience

- Tertiary engineering qualification relevant to the delivery of water or infrastructure projects.
- Experience in infrastructure construction, within the water industry.
- Experience in a project management role, preferably within the water industry.
- Demonstrated understanding of contract administration and site supervision.
- Strong knowledge of WHS, environmental and quality management systems.
- Proven ability to work collaboratively within multidisciplinary teams.
- Competent in using tools (e.g. Microsoft Project) to plan and monitor the delivery of projects against time, quality and budget
- WorkSafe Victoria Construction Induction
- Registration as, or working towards a Professional Engineer in Victoria (desirable)
- Recognition with Engineers Australia or working towards (desirable)

Compliance Requirements

- Driver's License
- Criminal background check
- Confirmation of fitness for work

Key Behaviours

Professionalism
Maintaining a positive attitude, being punctual and reliable, showing empathy and understanding in our interactions and respectful, and following workplace policies and procedures.

Integrity and honesty:
Being open and transparent when making decisions, giving honest and supported advice, exercising power in a fair and reasonable way and addressing unacceptable behaviours in the workplace.

Collaboration and cooperation:
Actively participating in teamwork, sharing ideas and working together towards shared goals and objectives.
